Please set-up your Hot Lunch / Noon Hour account at www.munchalunch.com/schools/LordTennyson if you don't have one.

Once you log into Munchalunch, click on the yellow "Noon Hour Programs" tab to find the Noon Hour offerings. Please note: these programs are not for fund-raising. The goal is student enrichment and the PAC relies on volunteer coordination to run the program.

If Fundraising appears CLOSED after the registration open date and time, try refreshing the webpage, or log out of Munchalunch and then log back in.

Chess is school academics in a game! Playing chess and being smart are interconnected. There's a strong correlation between chess and academic achievement including math, spatial analysis and non-verbal reasoning ability. Chess teaches higher level thinking skills such as visualization, analysis and critical thinking. Chess affords kids to connect with something in the real world which in turn, fire up their desire to learn. Joining in this Sherlock-Holmes-world of tactics and strategies, where the chessmen come personified, kids get trained in life-skills goal-setting: trapmate! (checkmate!). What's more, chess clothes them up with a Commander – leader - self-image in a friendly social setting where art meets science and math with fun!
